

ASSIGNMENT -2

Python Program

Coding:

```
import random

a=int(input("Enter the starting value: "))

b=int(input("Enter the stoping value: "))

i=1

while i<100:

    temp=random.randint(a,b)

    hum=random.randint(a,b)

    i+=1

    if temp>75 and hum>25:

        print("WARNING!!!")

    else:

        print("Normal")
```

The screenshot displays the OnlineGDB website in a web browser. The browser's address bar shows the URL 'onlinegdb.com/#'. The website's interface is dark-themed. On the left, a sidebar contains navigation links: 'Create New Project', 'My Projects', 'Classroom' (marked with a 'new' badge), 'Learn Programming', 'Programming Questions', 'Sign Up', and 'Logout'. Below these links are social media icons for Facebook, Twitter, and a '+ 176K' button. The main content area is a dark terminal window with the text 'input' at the top. The terminal shows a sequence of 'Normal' and 'WARNING!!!' messages, indicating a successful compilation and execution of a program. The Windows taskbar at the bottom shows the date as 01-Oct-2022 and the time as 02:17 PM.
